

## 38' – S&S SWAN

108.000 € | 38' | 1979

**Short specification:** one of best S&S design, this boat is one of last built, no, 111 of total 116. GRP solid skin construction with foam core longitudinal stringers and frames. Sandwich construction deck with new solid teak ribs from 2012. Tall rig mast and rigging new from 2008; Reckmann furling device on forestay; 4 sails with lazy-jacks; new windows on coachroof replaced on 2011; Bukh 32 HP main engine from 2004 with 1100 hours; new fridge 2014; Webasto heating system; all electronics instruments 2009 have been totally updated in last 3 years, etc. The long list of refitting and updates is available on request.

**NOTA BENE:** This is a Swan 38 very special not comparable to any other. She really turns heads everywhere she goes. I sold her to actual owner on March 2011, she was in good normal condition but new actual owner was not glad, he had other two Swan 38' before and decided to refit this latest where necessary to get the perfection as better than new. No expense has been spared over the last few years in improving and restoring her virtually to her original pristine condition. The list of renovations is too long to specify everything here but to obtain on request. In any case she needs to be inspected to appreciate what has been done. Further full specification by Pino Ferlini yacht broker, please contact Pino Yachts International.
