Satisfaction

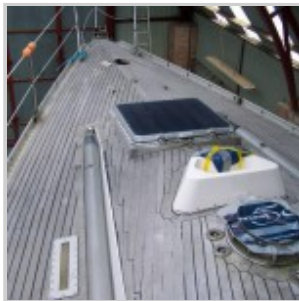

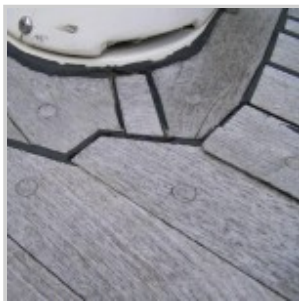

January 1, 2011 [Teak Decks](#)

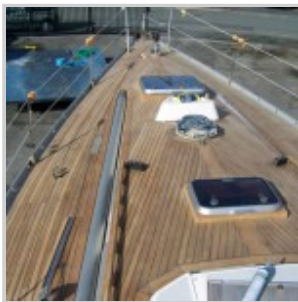

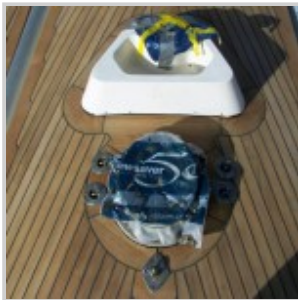

Satisfaction is a classic Sparkman and Stephens designed Swan 38 yacht that was in need of a new teak deck from TLC.

We removed the existing worn-out deck at our workshop in Conwy and replaced it with a brand new hand-built custom teak deck. We also carried out several other items of work including replacing the teak in the cockpit.

The owners of this beautiful boat have also been working on the boat updating the engines, interior fittings, safety equipment and rigging.

If you are the owner of a Swan who previously considered replacing or installing a teak deck would be too expensive please [contact us](#) to find out more, you may find that you are pleasantly surprised.
